

## RGT-XAI Software License

Copyright © 2025 Danilo Antonello Renzo  
All rights reserved.

Author, Licensor, and Copyright holder: Danilo Antonello Renzo

### 1. License Grant

The Licensor, Danilo Antonello Renzo, hereby grants the User a non-exclusive, non-transferable, non-sublicensable license to access and use the RGT-XAI software, subject to the terms and conditions of this License. The Licensor reserves the right, at its sole discretion, to deny access to any User, with or without reason.

### 2. Intellectual Property

The RGT-XAI Software and all related materials are protected by applicable national and international copyright laws and intellectual property regulations, including the Berne Convention for the Protection of Literary and Artistic Works and, where applicable, Directive 2009/24/EC on the legal protection of computer programs. In accordance with Italian Copyright Law (Law No. 633/1941), the software is recognised as creative scientific work. All rights to its source code, algorithms, architecture, design, documentation, and visual elements are exclusively owned by the Licensor (Danilo Antonello Renzo). Nothing in this License shall be construed as a transfer or waiver of any intellectual property rights. Users are expected to use the software in a way that respects the author's rights and the integrity of the work.

### 3. Permission and Restrictions

Permission is granted to access and use the RGT-XAI software through its web-based interface, which is activated and made available by the Licensor (Danilo Antonello Renzo) upon request. Access is subject to the terms of this License and any applicable Terms of Service published by the Licensor. Use of the software for commercial purposes—including but not limited to paid services, subscription-based access, resale, or integration into commercial offerings—requires a separate written agreement with the Licensor (Danilo Antonello Renzo).

Users may NOT:

- access, copy, or obtain the source code;
- reverse engineer, decompile, or disassemble the software;
- reproduce, modify, adapt, translate, or create derivative works;
- distribute, sublicense, lease, sell, or otherwise exploit the software or its functionality;
- use the software as part of a competing product or service.

The Licensor (Danilo Antonello Renzo) may impose additional usage conditions through Terms of Service or Acceptable Use Policies published separately.

### 4. Warranty Disclaimer

The software is provided “as is” and “as available”, without warranty of any kind, express or implied, and the author shall not be liable for any damages arising from the use or unavailability of the software.

### 5. Termination of Access

The Licensor (Danilo Antonello Renzo) reserves the right, at its sole discretion, to suspend or terminate a user's access to the software at any time, with or without notice, for any reason, with or without justification. If the user violates this License, the applicable Terms of Service, or uses the software in a manner that may harm the copyright holder, the software, or others, the user's access will be immediately blocked. Upon termination, all rights granted to the user under this License shall immediately cease.

## 6. Abuse Prevention and Protection

Users may not use automated means, scripts, bots, crawlers, scraping tools, or similar technologies to access, query, extract, infer, or replicate the software, its underlying models, algorithms, logic, outputs, or behavior patterns. Any attempt to derive, approximate, or reverse engineer the internal logic, decision processes, or models of the software through systematic querying or output analysis is strictly prohibited.

## 7. Ethical Use

Users must use the software in an ethical, responsible, and lawful manner.

Specifically, users shall NOT use the software to:

- violate applicable laws, regulations, or human rights;
- generate, disseminate, or promote content that is illegal, harmful, violent, discriminatory, or intended to harass, deceive, or defraud;
- develop or deploy autonomous systems or AI outputs that may cause physical, financial, or psychological harm to individuals or society;
- engage in activities intended to circumvent, bypass, or undermine security, privacy, or access controls of the software or its infrastructure;
- exploit the software to create or support weapons, surveillance, or applications that materially threaten public safety or privacy.

The Licensor (Danilo Antonello Renzo) reserves the right to determine, at its sole discretion, whether a user's actions violate these ethical standards, and may suspend or terminate access immediately in such cases.
